

building:careers

Ohorongo Cement is passionately dedicated to offering Namibia locally-produced, world-class cement.

We are a member of the Germany-based SCHWENK family, whose international legacy of quality spans over 160 years.

We decided on a substantial investment through building an environmental-friendly plant in the Otavi/Tsumeb region.

We will cement our position as one of Namibia's chief economic players by boosting economic growth, reducing unemployment, transferring skills, attracting foreign-based Namibians and delivering products of uncompromising quality.

Electrical Maintenance Supervisor

Reporting to the Maintenance Manager, the Electrical Maintenance Supervisor is responsible to coordinate and control the electrical maintenance work at the plant. This position is Otavi based.

responsibilities

- planning of daily activities to ensure trouble free continuous operation of the plant
- enforcement of health and safety regulations and all company policies and procedures for (agency) staff
- maintenance and inspection (scheduled and unscheduled) of high-, medium- and low-voltage plants as per laid down standards: plan-shut downs and repairs to ensure minimum downtime; keeps comprehensive relevant records and maintenance program
- securing of optimum levels and timeous availability of stocks as per laid down standards and cost containment
- continuous improvement
- maintenance personnel training and performance evaluations

requirements

- B Tech degree in an appropriate discipline and an Incorporated Engineer
- three (3) years experience as an electrical maintenance supervisor as well as in the electrical maintenance process of companies in the raw and/or bulk material industry
- knowledge in IT Systems and Microsoft Office
- knowledge of electro-techniques, accident prevention regulations as well as relevant local electrical regulations
- experience in project management would be an advantage
- ability to point out difficult and complex technical processes and facts
- inter-personal, communication, leadership, flexibility and inter-cultural intelligence skills
- must be able to work independently but also in a team
